

Question 1: Temperature Checker

Write a program that asks the user to input the **current temperature in Celsius**, and then:

- If it's **35°C or above**, print: "It's very hot. Stay hydrated!"
 - If it's **20°C to 34°C**, print: "Nice weather today."
 - If it's **below 20°C**, print: "It's cold. Wear a jacket!"
-

Question 2: Magic Number Game

Ask the user to input a number. If the number is:

- **Exactly 7**, print: "You found the magic number!"
 - **Less than 7**, print: "Too low, try again!"
 - **Greater than 7**, print: "Too high, try again!"
-

Question 3: Bus Fare Calculator

Write a program that asks for the passenger's **age** and prints their bus fare:

- **Below 5 years**: "Free ride"
- **5 to 18 years**: "Fare is 20 KES"
- **Above 18 years**: "Fare is 50 KES"
